

## **Success Skills for Graduate Students**

**The American Speech, Hearing, and Language Association (ASHA, 2000) identified nine workplace success skills that graduate students needed to learn. These should be a foundation for every clinical practicum setting.**

- ❖ **Planning and priority setting**
- ❖ **Organization and time management**
- ❖ **Management of diversity**
- ❖ **Team-building**
- ❖ **Interpersonal savvy and peer relationships**
- ❖ **Organizational agility**
- ❖ **Conflict management**
- ❖ **Problem solving, perspective, and creativity**
- ❖ **Ability to deal with paradox and learn on the fly**
