

CLIENT SAFETY

Parents are required to escort children into the building, unless the child drives himself or herself to the session or unless prior written arrangements are made with the clinical educator in charge of the case. The child should sit in the waiting room with the permission of the Clinic staff or the parent should deliver the child to the clinician for treatment. Parents must pick the children up immediately upon the completion of the therapy session. Children will not be allowed to wait for parents outside the building or to remain in the building unattended. Failure to comply with these rules may result in dismissal from treatment.
